Active Active Learning by John Churchley

G	Em
We know that active learning is an	appr <u>oac</u> h we must pursue
Am	D
But if it's just sitting down at tables	s, there's even m <u>ore</u> that you can do
G	Em
There are <u>lot</u> s of active lessons: Think, Pair, <u>Share</u> is really neat	
Am	D
But if you $\underline{\text{want t}}$ heir brains to light up, why don't you $\underline{\text{get}}$ them on their feet	
D	
A – C – T – I-V-E!You know want to do	
Chorus	
G	Am
Active active learning, to really get	those synapses a-churning
C	
Get their <u>hea</u> rts going and their <u>neur</u> ons growing	
D	
Make their <u>lear</u> ning really deep	
Ac <u>tivi</u> ties can help you	
To really energize	
Your thinking will be clearer	
And your mood will really rise	
Other active learning may be really	y great
To settle down your frayed nerves	
And <u>hel</u> p self-regulate	
A – C – T – I-V-E!You know wa	nt to do

Chorus

When <u>doing</u> active lessons
Instead of <u>sitting</u> in their seat
As <u>much</u> as they are able
Get them <u>up</u> and on their feet

Com<u>muni</u>ty builds from action

And helps us <u>feel</u> that we belong

It <u>builds</u> our motivation

So just show <u>up</u> and sing this song!

A - C - T - I-V-E! ... You know want to do...

Chorus x 2

A - C - T-I-V-E!!
